Smart City Wireless Services • Miami Beach Convention Center

Wi-Fi Quick Access Guide

Wireless services are now a self-service option you may purchase at any time.

- Open your browser *(Internet Explorer, Firefox, or other standard browser).*
- You should see a page resembling the graphic shown.*
- If this is your initial purchase, enter your user name (email address) and password in the area shown on the left and click BUY NOW. Follow additional prompts to complete your purchase or log-in. Refer to service options and limitations shown to the right.
- If you have already created an account and are returning for an additional session click LOGIN.
- *Please note User Name and Password are Case SensiTive.*

*If you do not see the above screenshot when you open your browser please refresh your browser. If you still do not see this page you may need to manually select the SSID (network name) by following your computer's procedure for viewing and selecting a wireless network. The Smart City SSIDs you will look for are "Exhibitor Internet" or "Instant Internet".

Available Wireless Options

Depending on where you are in the facility, you will see one or both of the following SSIDs (network names). Although you may see both networks, they are not actually supported in all areas. These networks are supported only in the areas listed. Choose the option which bests suits your location and requirements. All wireless services have private IP addresses.

- **Exhibitor Internet** - Available in *Exhibit Halls only* on the 5Ghz frequency only. **Not** available in common areas (hallway, meeting rooms or lobby areas). Price is $79.99 / 24 hr; $159.99 / 3 day; $239.99 / 5 day (up to 1.54Mbps up/1.54Mbps down).

- **Instant Internet** - Available in *Meeting rooms, common areas, and lobby areas only*. **Not** available in Exhibit Halls. $12.95 per 24 clock hours per device (up to 256k up/512k down).

- **Free Internet** - *Limited to lobbies and common areas only.* **Not** available in Meeting Rooms. One session per calendar day (up to 128k up/256k down).
